Answer: A

Question: 5

Before adding users to TMSPE, where does an engineer set up a group hierarchy in Cisco TMS?

- A. Administrative Tools > Configuration
- B. System > Provisioning > Devices
- C. System > Provisioning > Users
- D. System > Provisioning > FindMe

Answer: C

Question: 6

The system administrator has successfully integrated Cisco Unity Connection over a WAN with Cisco Unified Communication Manager using SIP. When a call to a subscriber is forwarded to voicemail. the caller correctly hears the subscriber greeting. During a recent WAN oversubscription event, instead of routing the calls via SIP directly to Unity Connection, the AAR feature was used to route the calls via the PSTN to Unity Connection This worked, however on forwarded calls, the caller no longer heard the subscriber's greeting, but rather an auto attendant message that asked them to enter the extension of a party they want to reach. Which cause of callers not hearing the correct subscriber greeting is most likely true?

- A. The telephone carrier is not preserving RDNIS across the network
- B. AAR System Setting is not enabled in Unity Connection.
- C. Unity Connection Restriction Tables is not permitting calls via the PSTN
- D. DTMF is not negotiated properly on this call

Answer: A

Question: 7

Which statement about how Cisco Unity Express sets its system clock is true?

- A. The clock is set by configuring an NTP server and time zone via the Unity Express CLI.
- B. The Unity Express clock must be manually set.
- C. The CUE clock gets initialized automatically without requiring any configuration.
- D. The Unity Express clock must use the same NTP resource as the Cisco Unified CME router.

Answer: A

Question: 8

What are two requirements for video greetings in Cisco Unity Connection? (Choose two.)

- A. Cisco Media Sense 10.0(1) or later
- B. Cisco Expressway products
- C. Cisco Unified Communications Manager Release 8.5(1) or later
- D. Cisco Unity Connection 8.5(1)
- E. SCCP endpoints such as 79XX

Answer: AD

Question: 9

Which describes an Idle status of the node in a Presence Redundancy Group?

- A. In this state, you can manually initiate a failover to this node using the Cisco Unified CM Administration user interface
- B. The IM & Presence Service node does not provide any availability or Instant Messaging services
- C. This is the initial state when the Cisco Server Recovery Manager service starts.
- D. The IM & Presence Service node has failed over, but no critical services are down

Answer: B

Question: 10
