Answer: C

QUESTION: 49

Drop

Drag and drop five Network Readiness Assessment activities from the left to the right column.

Left Column	Network Readiness Assessment activities
Perform Application Assessment Gap Analysis	
Data and Voice Infrastructure Site Surveys	
Perform Voice and Data Gap Analysis	
Onsite Operational Assessment	
Call Processing Assessment	
Security Analysis	
Traffic Analysis	
Circuit Analysis	

Answer:

Drag and drop five Network Readiness Assessment activities from the left to the right column.

Left column:
- Perform Application Assessment Gap Analysis
- Data and Voice Infrastructure Site Surveys
- Perform Voice and Data Gap Analysis
- Onsite Operational Assessment
- Call Processing Assessment
- Security Analysis
- Traffic Analysis
- Circuit Analysis

Right column — Network Readiness Assessment activities:
- Data and Voice Infrastructure Site Surveys
- Perform Voice and Data Gap Analysis
- Security Analysis
- Traffic Analysis
- Circuit Analysis

QUESTION: 50
Upon which critical tool do the identify incident and identify problem activities rely?

A. Trouble Ticketing System
B. Continuous Improvement Plan
C. Performance and Event Monitor
D. Operations Incentive Program Tool

Answer: A

Answer: B

QUESTION: 52

Drop

Drag and drop each activity in the left column in sequential order of the flow of activities within a project timeline.

System Acceptance Test Plan Development	Project activity 1
Collect and Verify Requirements	Project activity 2
Implementation Plan Development	Project activity 3
Ongoing Support Handoff	Project activity 4
Network Readiness Assessment	Project activity 5
Business Requirements Workshop	Project activity 6
Host Design Workshop	Project activity 7
Perform Staff Training	Project activity 8
Produce High Level Design	Project activity 9
Install Components of the IPC Solution	Project activity 10

Answer:

Drag and drop each activity in the left column in sequential order of the flow of activities within a project timeline.

Left Column	Right Column
System Acceptance Test Plan Development	Business Requirements Workshop
Collect and Verify Requirements	Produce High Level Design
Implementation Plan Development	Collect and Verify Requirements
Ongoing Support Handoff	Network Readiness Assessment
Network Readiness Assessment	Host Design Workshop
Business Requirements Workshop	Implementation Plan Development
Host Design Workshop	System Acceptance Test Plan Development
Perform Staff Training	Install Components of the IPC Solution
Produce High Level Design	Ongoing Support Handoff
Install Components of the IPC Solution	Perform Staff Training

QUESTION: 53
Which template or tool is used for each task in performing a Network Readiness Assessment on data and voice infrastructure activity?

A. Capacity Indicators
B. Site Survey
C. Validation Survey
D. Installation Guide
E. Opportunity Incentive Tool

Answer: B

QUESTION: 54
