ACP-200 Confluence Administrator Exam

Total Question: 124

Question: 1

Debbie Garza (dgj123) was recently hired by your company as an engineer to work on the TI-X Prototype space Engine. At the same time, your company has implemented new security requirements to protect intellectual property.

You have set up new groups, space, and page restrictions for the teams in Space Home. You added Debbie to the engine-developers group; however, she still cannot see the TI-X Prototype space Engine page, even though you can view and edit that page. Using the Exhibits below, troubleshoot the problem.
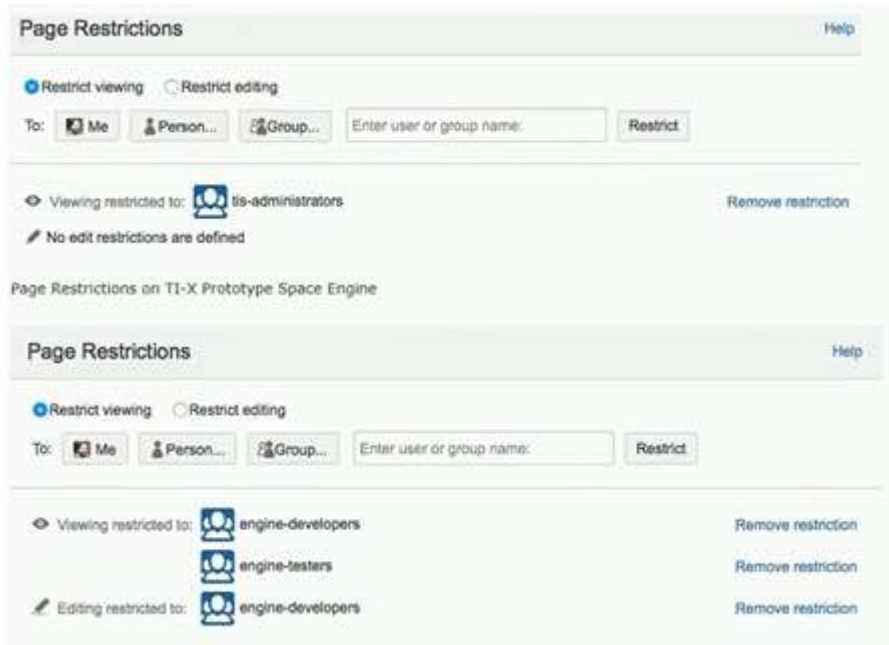

Exhibits Pages in Space

Space Permissions

Groups

These are the permissions currently assigned to groups for this space.

	All	Pages		Blog		Comments		Attachments		Restrictions	Mail	Space	
	View	Add	Delete	Add	Delete	Add	Delete	Add	Delete	Add/Delete	Delete	Export	Admin
engine-developers	✅	✅	❌	❌	❌	✅	❌	✅	❌	❌	❌	❌	❌
engine-testers	✅	❌	❌	❌	❌	✅	❌	❌	❌	❌	❌	❌	❌
tis-administrators	✅	✅	✅	✅	✅	✅	✅	✅	✅	✅	✅	✅	✅

Page Restrictions on 01 Jet Bridges

Select the most appropriate solution.

A. Add dgj123 to the tis-administrators group.
B. Add dgj123 as a viewer to the TI-X Prototype Space Engine page.
C. Add dgj 123 as an individual user in the Space Permissions with View and Page Add access.
D. Add engine-developers as a viewer to the 01 Jet Bridges page.
E. Add dgj 123 as an editor to the 01 Jet Bridges page.

Answer: B

Question: 2

Answers: A, D, E

Question: 4

A project manager creates a page for every risk identified by the project.
Each page has a formatted table that tracks information about the risk, as illustrated below, but
management needs to see the risks and their related information in a single page.

External Dependency for Project

Created by Douglas Adams, last modified just a moment ago

Status	RESOLVED
Stakeholders	Ford Prefect
Priority	MEDIUM
Probability	LOW
Due date	25 Jun 2016
Owner	Douglas Adams

Which method would you recommend to provide management with an overview of the risks, their priority, and their probability?

A. Create a page with the Search Results macro that queries the risk pages and shows short excerpts in the results.
B. Use the Page Include macro to aggregate all the content into one page.
C. Wrap the tables in the Page Properties macro and use the Page Properties Report Macro to show all the information on a single page.
D. Wrap the tables in the Excerpt macro and use the Excerpt Include macro to collect all the tables in one place.

Answer: C

Question: 5
