Question: 1	
What are the four retention settings available in the backup copygroup?	
A NUMBER Versions NUMBER Polished DAYCFutus DAYCOUL.	
A. NUMBERVersions, NUMBERDeleted, DAYSExtra, DAYSOnly	
B. VERExists, VERDeleted, RETExtra, RETOnly C. VERNumber, DELETEDNumber, DAYSRetain, DAYSOnly	
D. EXISTVersion, DELETEDVersion, EXTRERetain, ONLYRetain	
-	Answer: B
-	7.11.01.01.1
Explanation:	
Reference:	
(http://www.redbooks.ibm.com/redbooks/pdfs/sg248134.pdf) page 178	
Question: 2	
Which client function is used to recover archived data?	
A. Retrieve	
B. Restore	
C. Rebuild	
D. Recover	
_	Anguran D
	Answer: B
Explanation:	
(http://www.redbooks.ibm.com/redbooks/pdfs/sg248134.pdf) page 51	
Overtions 2	
Question: 3	
If some files on the source server are not replicating to the target server,	what should be checked to
determine the cause?	
A. review replrule associated with the filespace	
B. review the server replication log	
C. check the replicate node schedule for exclude parameter	
D. review include/exclude list for replicate=no parameters	
- -	Answer: A
Question: 4	

Answer: A

Which component is vital to an IBM Tivoli Storage Manager Database omemory, database containers and active log?	operations in addition to	
A. Archive Log Mirror B. Recovery Log C. Archive Log D. Activity Log		
	Answer: C	
Question: 5		
Which IBM Tivoli Storage Manager server options allow for more effici devices?	ent streaming of data to tape	
A. MOVESIZETHRESH 32768 MOVEBATCHSIZE 1000 B. TXNBYTE 32768 TXNBUFSIZE 1000 C. MIGRATSIZE 32768 MIGRECLBATCSIZE 1000 D. SIZETHRESH 32768 BATCHSIZE 1000	et	
	Answer: A	
Question: 6		
Which IBM Tivoli Storage Manager (TSM) Client component can be configured to allow the TSM Administrator to run backups and restores remotely without data owner interaction?		
A. OnDemand Client B. Remote Control C. Client Acceptor Daemon D. Remote Scheduler		

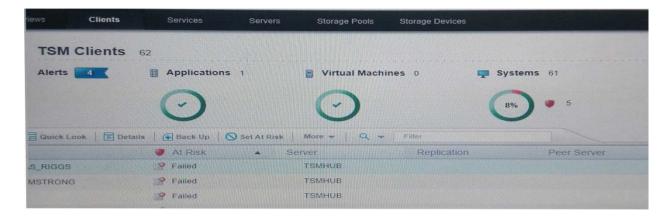

Question: 7

Which option is required to install IBM Tivoli Storage Manager (TSM) V7.1.1 administrative command line?

- A. the Custom setup of the TSM server
- B. the Custom setup of the TSM backup-archive client

What is the command sequence for configuring a tape library for IBM Tivoli Storage Manager? A. DEFINE LIBRARY > DEFINE PATH > DEFINE DRIVE > DEFINE PATH B. DEFINE DRIVE > DEFINE PATH > DEFINE LIBRARY > DEFINE PATH C. DEFINE PATH > DEFINE LIBRARY > DEFINE PATH > DEFINE LIBRARY > DEFINE DRIVE > Answer: A Explanation: Reference: http://www-01.ibm.com/support/docview.wss?uid=swg21376419 Question: 9 Which information does VALIDATE REPLPOLICY display? A. displays the differences between the replication policies on a source and target replication server B. lists the number of invalid policies on the source server and compares that list with invalid policies on the target server C. displays the inactive policy differences between the source and target server D. compares the policies between the source server and target server and makes sure they are exactly the same Explanation: Reference: http://www- 01.ibm.com/support/knowledgecenter/SSGSG7_7.1.3/srv.reference/r_cmd_replpolicy_validate Question: 10	C. the Typical setup of the TSM backup-archive client D. the Typical setup of the TSM server	
What is the command sequence for configuring a tape library for IBM Tivoli Storage Manager? A. DEFINE LIBRARY > DEFINE PATH > DEFINE DRIVE > DEFINE PATH B. DEFINE DRIVE > DEFINE PATH > DEFINE LIBRARY > DEFINE PATH C. DEFINE PATH > DEFINE DRIVE > DEFINE PATH > DEFINE LIBRARY D. DEFINE PATH > DEFINE LIBRARY > DEFINE PATH > DEFINE DRIVE Answer: A Explanation: Reference: http://www-01.ibm.com/support/docview.wss?uid=swg21376419 Question: 9 Which information does VALIDATE REPLPOLICY display? A. displays the differences between the replication policies on a source and target replication server B. lists the number of invalid policies on the source server and compares that list with invalid policies on the target server C. displays the inactive policy differences between the source and target server D. compares the policies between the source server and target server and makes sure they are exactly the same Answer: A Explanation: Reference: http://www- 01.ibm.com/support/knowledgecenter/SSGSG7_7.1.3/srv.reference/r_cmd_replpolicy_validate		Answer: D
A. DEFINE LIBRARY > DEFINE PATH > DEFINE DRIVE > DEFINE PATH B. DEFINE DRIVE > DEFINE PATH > DEFINE LIBRARY > DEFINE PATH C. DEFINE PATH > DEFINE DRIVE > DEFINE PATH > DEFINE LIBRARY D. DEFINE PATH > DEFINE LIBRARY > DEFINE PATH > DEFINE DRIVE Answer: A Explanation: Reference: http://www-01.ibm.com/support/docview.wss?uid=swg21376419 Question: 9 Which information does VALIDATE REPLPOLICY display? A. displays the differences between the replication policies on a source and target replication server B. lists the number of invalid policies on the source server and compares that list with invalid policies on the target server C. displays the inactive policy differences between the source and target server D. compares the policies between the source server and target server and makes sure they are exactly the same Explanation: Reference: http://www- O1.ibm.com/support/knowledgecenter/SSGSG7_7.1.3/srv.reference/r_cmd_replpolicy_validate	Question: 8	
B. DEFINE DRIVE > DEFINE PATH > DEFINE LIBRARY > DEFINE LIBRARY C. DEFINE PATH > DEFINE DRIVE > DEFINE PATH > DEFINE LIBRARY D. DEFINE PATH > DEFINE LIBRARY > DEFINE PATH > DEFINE DRIVE Answer: A Explanation: Reference: http://www-01.ibm.com/support/docview.wss?uid=swg21376419 Question: 9 Which information does VALIDATE REPLPOLICY display? A. displays the differences between the replication policies on a source and target replication server B. lists the number of invalid policies on the source server and compares that list with invalid policies on the target server C. displays the inactive policy differences between the source and target server D. compares the policies between the source server and target server and makes sure they are exactly the same Explanation: Reference: http://www- O1.ibm.com/support/knowledgecenter/SSGSG7_7.1.3/srv.reference/r_cmd_replpolicy_validate	What is the command sequence for configuring a tape library for IBM Tiv	voli Storage Manager?
Explanation: Reference: http://www-01.ibm.com/support/docview.wss?uid=swg21376419 Question: 9 Which information does VALIDATE REPLPOLICY display? A. displays the differences between the replication policies on a source and target replication server B. lists the number of invalid policies on the source server and compares that list with invalid policies on the target server C. displays the inactive policy differences between the source and target server D. compares the policies between the source server and target server and makes sure they are exactly the same Answer: A Explanation: Reference: http://www- 01.ibm.com/support/knowledgecenter/SSGSG7_7.1.3/srv.reference/r_cmd_replpolicy_validate	B. DEFINE DRIVE > DEFINE PATH > DEFINE LIBRARY > DEFINE PATH C. DEFINE PATH > DEFINE DRIVE > DEFINE PATH > DEFINE LIBRARY	
Reference: http://www-01.ibm.com/support/docview.wss?uid=swg21376419 Question: 9 Which information does VALIDATE REPLPOLICY display? A. displays the differences between the replication policies on a source and target replication server B. lists the number of invalid policies on the source server and compares that list with invalid policies on the target server C. displays the inactive policy differences between the source and target server D. compares the policies between the source server and target server and makes sure they are exactly the same Answer: A Explanation: Reference: http://www- 01.ibm.com/support/knowledgecenter/SSGSG7_7.1.3/srv.reference/r_cmd_replpolicy_validate		Answer: A
Which information does VALIDATE REPLPOLICY display? A. displays the differences between the replication policies on a source and target replication server B. lists the number of invalid policies on the source server and compares that list with invalid policies on the target server C. displays the inactive policy differences between the source and target server D. compares the policies between the source server and target server and makes sure they are exactly the same Answer: A Explanation: Reference: http://www- 01.ibm.com/support/knowledgecenter/SSGSG7_7.1.3/srv.reference/r_cmd_replpolicy_validate	Reference:
