Question: 2

HOTSPOT

You need to create and configure objects to support the requirements.

How should you configure the system? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Setting	Value
Total number of queues	<div style="border: 1px solid black; padding: 2px;"> <div style="display: flex; justify-content: space-between; align-items: center;"> ▼ </div> <div style="border-top: 1px solid black; border-bottom: 1px solid black; padding: 2px;">3</div> <div style="border-top: 1px solid black; border-bottom: 1px solid black; padding: 2px;">4</div> <div style="border-top: 1px solid black; border-bottom: 1px solid black; padding: 2px;">5</div> <div style="border-top: 1px solid black; border-bottom: 1px solid black; padding: 2px;">6</div> </div>
Number of automatic case creation rules	<div style="border: 1px solid black; padding: 2px;"> <div style="display: flex; justify-content: space-between; align-items: center;"> ▼ </div> <div style="border-top: 1px solid black; border-bottom: 1px solid black; padding: 2px;">1</div> <div style="border-top: 1px solid black; border-bottom: 1px solid black; padding: 2px;">2</div> <div style="border-top: 1px solid black; border-bottom: 1px solid black; padding: 2px;">3</div> <div style="border-top: 1px solid black; border-bottom: 1px solid black; padding: 2px;">4</div> </div>
Number of routing rule sets	<div style="border: 1px solid black; padding: 2px;"> <div style="display: flex; justify-content: space-between; align-items: center;"> ▼ </div> <div style="border-top: 1px solid black; border-bottom: 1px solid black; padding: 2px;">3</div> <div style="border-top: 1px solid black; border-bottom: 1px solid black; padding: 2px;">4</div> <div style="border-top: 1px solid black; border-bottom: 1px solid black; padding: 2px;">5</div> <div style="border-top: 1px solid black; border-bottom: 1px solid black; padding: 2px;">6</div> </div>

Answer:

Explanation:

Setting	Value
Total number of queues	<div style="border: 1px solid black; padding: 2px;"> <input type="text" value="3"/> ▼ </div> <div style="border: 1px solid black; padding: 2px;">3</div> <div style="border: 1px solid black; padding: 2px;">4</div> <div style="border: 1px solid black; padding: 2px;">5</div> <div style="border: 1px solid black; padding: 2px;">6</div>
Number of automatic case creation rules	<div style="border: 1px solid black; padding: 2px;"> <input type="text" value="1"/> ▼ </div> <div style="border: 1px solid black; padding: 2px;">1</div> <div style="border: 1px solid black; padding: 2px;">2</div> <div style="border: 1px solid black; padding: 2px;">3</div> <div style="border: 1px solid black; padding: 2px;">4</div>
Number of routing rule sets	<div style="border: 1px solid black; padding: 2px;"> <input type="text" value="3"/> ▼ </div> <div style="border: 1px solid black; padding: 2px;">3</div> <div style="border: 1px solid black; padding: 2px;">4</div> <div style="border: 1px solid black; padding: 2px;">5</div> <div style="border: 1px solid black; padding: 2px;">6</div>

Question: 3

You need to configure the queue for telephone-based cases.
 What are two possible ways to achieve this goal? Each correct answer presents a complete solution.
 NOTE: Each correct selection is worth one point.

- A. Create a case from email.
- B. Define an SLA and entitlements and set entitlement values for case numbers.
- C. Configure a status reason transition.
- D. Create a case routing rule.
- E. Automatically create or update records.

Answer: BC

Explanation:

Question: 4

HOTSPOT

You need to configure the correct settings.

Which settings should you configure? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Scenario	Setting
Process cases for an insurance type once a type is selected.	<div style="border: 1px solid gray; padding: 2px;"> <div style="border-bottom: 1px solid gray; padding: 2px;">▼</div> <div style="padding: 2px;">Case routing</div> <div style="padding: 2px;">Automatically create and update records</div> <div style="padding: 2px;">Create queues</div> </div>
Receive and process an email from a customer to open an insurance claim.	<div style="border: 1px solid gray; padding: 2px;"> <div style="border-bottom: 1px solid gray; padding: 2px;">▼</div> <div style="padding: 2px;">Case routing</div> <div style="padding: 2px;">Automatically create and update records</div> <div style="padding: 2px;">Create queues</div> </div>
Ensure cases phoned in can be separated and taken only by the applicable representative.	<div style="border: 1px solid gray; padding: 2px;"> <div style="border-bottom: 1px solid gray; padding: 2px;">▼</div> <div style="padding: 2px;">Case routing</div> <div style="padding: 2px;">Automatically create and update records</div> <div style="padding: 2px;">Create queues</div> </div>
