Version: 45.0

Question: 1

HOTSPOT

You need to configure a conditional access policy to meet the compliance requirements.

You add Exchange Online as a cloud app.

Which two additional settings should you configure in Policy1? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

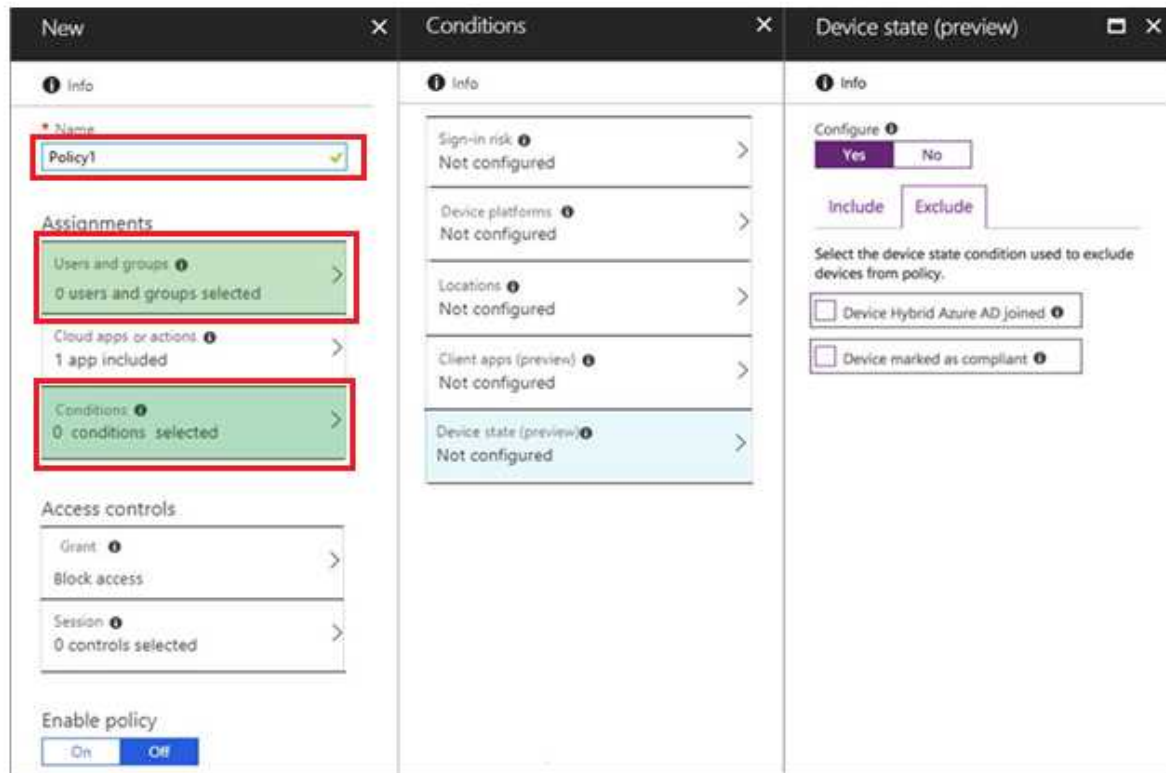

The screenshot displays three panes from the Microsoft Intune console:

- New:** Shows the policy name 'Policy1' and assignment counts: 0 users and groups, 1 app included, and 0 conditions selected. Access controls for Grant and Session are shown with 0 controls selected. The 'Enable policy' toggle is currently set to 'Off'.
- Conditions:** Lists five conditions, all currently 'Not configured': Sign-in risk, Device platforms, Locations, Client apps (preview), and Device state (preview).
- Device state (preview):** Shows configuration options for 'Include' and 'Exclude', and two checkboxes for excluding devices: 'Device Hybrid Azure AD joined' and 'Device marked as compliant', both of which are currently unchecked.

Answer:

Question: 2

On which server should you install the Azure ATP sensor?

- A. Server 1
- B. Server 2
- C. Server 3
- D. Server 4
- E. Server 5

Answer: A

Explanation:

Reference:

<https://docs.microsoft.com/en-us/azure-advanced-threat-protection/atp-capacity-planning>

However, if the case study had required that the DCs can't have any s/w installed, then the answer would have been a standalone sensor on Server2. In this scenario, the given answer is correct. BTW, ATP now known as Defender for Identity.

Question: 3

You need to meet the compliance requirements for the Windows 10 devices.

What should you create from the Intune admin center?

- A. a device compliance policy
- B. a device configuration profile
- C. an application policy
- D. an app configuration policy

Answer: C

Explanation:

Question: 4

HOTSPOT

You need to meet the Intune requirements for the Windows 10 devices.

What should you do? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Settings to configure in Azure AD:

| | |
|------------------------------|---|
