- A. Scope of services
- B. Project description
- C. Terms and conditions
- D. Compensation schedule

**Correct Answer: A**

**QUESTION 7**

Your client has a very limited budget for design services, and the scope of the project warrants mechanical and electrical engineering specification.

What should you do?

- A. Reduce your scope to reduce the fee, and contract with a mechanical/electrical engineer for an outline specification.
- B. Recommend that the client work with a contractor to provide design-build services for mechanical/electrical work.
- C. Request that the client contract directly with a mechanical/electrical engineer for limited services to review your drawings.
- D. Insist that your client increase the design budget to cover the necessary mechanical/electrical design services.

**Correct Answer: B**

**QUESTION 8**

Why is it necessary to indicate the placement of the proposed elevator and stairway in a preliminary plan?

- A. To ensure an acceptable location to meet all codes
- B. To verify the client's budget constraints
- C. To establish the structural support work required
- D. To ensure accessibility and visibility to visitors

**Correct Answer: A**

**QUESTION 9**

In which space is emergency lighting REQUIRED?

- A. Elevators
- B. Private offices
- C. Egress corridors
- D. Restrooms

**Correct Answer: C**

**QUESTION 10**

After construction on a project has begun, the client asks you to change the wallcovering originally specified to one that does not meet current code requirements.

Which of the following is your BEST course of action?

- A. Research available products that are similar to the requested product and meet the code requirements. Present the options to the client for approval.
- B. Write a letter to the client stating that the change is against your professional recommendation and that you will make the change but assume no liability.
- C. Write a letter to the client explaining that you will not make the requested change.
- D. Tell the client that you will remove the wallcovering from the project and that the client may select and install a different product after your work is completed.

**Correct Answer: A**

**QUESTION 11**

How do you ensure that all signage on a construction project will be installed in the correct locations?
