Version: 4.0

Question: 1

What relation does scrum have to development practices?

A. Scrum requires a specific set of development practices
B. Scrum is complemented by good development practices
C. Scrum requires all development practices
D. Scrum has no relationship to development practices

Answer: B

Explanation:
Scrum requires no development practices, but good development practices do help and make scrum more successful.

Question: 2

Database design must be complete before coding starts to ensure a solid foundation

A. False
B. True

Answer: A

Explanation:
The design grows as more is learnt.

Question: 3

What is a merge in a version control system?

A. Identifying a particular codebase as ready for distribution
B. Combining two or more versions of code into a single codebase
C. Copying a portion of a codebase to isolate it from the original codebase
D. Two or more developers working together to ensure proper coding and configuration management

Answer: B

Explanation:

Merging means combining two different versions of the code into one version.

Question: 4

In software development DRY refers to:

A. Code with low cyclomatic complexity
B. Code with minimal duplication
C. Code that has not been peer reviewed (yet)
D. Code that has been peer reviewed

Answer: B

Explanation:
DRY, don't repeat yourself

Question: 5

Who is responsible for a sprint backlog item that contains several database tasks?

A. The developers
B. Product owner
C. The company's database specialist
D. Scrum master

Answer: A

Explanation:
Developers are responsible for conducting the work on the sprint backlog
