Vmware

VCI550

VMware Certified Instructor on vSphere 5.5

QUESTION: 264
A VMware administrator determines that the active memory on an ESXi 5.x host is 20% and the consumed memory is 90%. How much host memory is available to virtual machines?

A. 80%
B. 10%
C. 70%
D. 20%

Answer: A

QUESTION: 265
The vSphere administrator needs to check the system health of an ESXi 5.x host using the vSphere Web Client. Which option in the Monitor tab should the administrator use for the selected host?

A. Performance
B. Hardware Reports
C. Storage Status
D. Issue Log

Answer: A

QUESTION: 266
A vSphere administrator needs to configure the environment to send a notification to a monitored email address every time a vSphere alarm is triggered. Which procedure should the administrator use to accomplish the task?

A. Use the vSphere web client to configure the vCenter Server SMTP settings. Edit the alarm action to send a notification email.
B. Use the vSphere web client to configure the vCenter Server SNMP settings. Edit the alarm action to send a notification email.
C. Use the vSphere web client to create a vCenter Server scheduled task that will send a notification email when an alarm is triggered.
D. Use the vSphere web client to create a vCenter Orchestrator workflow that will send a notification email when an alarm is triggered.

Answer: A

QUESTION: 267
Which default alarm definition will send a notification trap if the redundant storage path is lost?

A. Cannot connect to storage
B. Datastore removed from host
C. Host storage status
D. Hardware health changed

Answer: A

QUESTION: 268
-- Exhibit --

-- Exhibit --
The vCenter Operations Manager dashboard is showing Health issues associated with the selected virtual machine. There have been no availability or configuration issues with the virtual machine, and the workload badge is still green: How should an administrator resolve this issue?

A. Select the Anomalies badge to identify the cause of the abnormal behavior, then take appropriate action.
B. Select the Stress badge to identify the cause of the increased stress, then take appropriate action.
C. Select the Risk badge, identify the host at risk, and migrate the VM to a host with more resources.
D. Select the Risk badge to identify how much time is remaining before CPU resources are gone, then assign more resources.

Answer: A

QUESTION: 269
Time Remaining, Capacity Remaining, and Stress are minor badges of which major badge in vCenter Operations Manager?

A. Health
B. Risk
C. Efficiency
D. Workload

Answer: B

QUESTION: 270
Which minor badge items make up the Efficiency badge score for an ESXi host in vCenter Operations Manager?

A. Workload, Anomalies, Faults
B. Workload, Stress, Density
C. Time Remaining, Capacity Remaining
D. Reclaimable Waste, Density

Answer: D
