B. Temporary folderC. Windows folder

Version: 8.0	
Question: 1	
How does Veritas Storage Foundation for Windows benefit multi-vendo	or storage environments?
A. It dynamically provisions LUNs from dissimilar storage arrays.B. It provides hardware-based snapshots across dissimilar arrays.C. It reduces complexity and utilization across dissimilar arrays.D. It allows online migration of data across dissimilar storage.	
	Answer: D
Question: 2	
Which Veritas Storage Foundation for Windows feature helps reduce do	owntime?
A. volume shred B. dynamic volume growth C. striped volumes D. mirror spanned volumes	
	Answer: B
Question: 3	
To complete the installation of Symantec Backup Exec System Recover available before reaching the Home Page the first time the program is st	
A. license and activate the software using the license key B. run LiveUpdate to check for product updates C. configure the SMTP notification settings D. use EasySetup to create the first backup E. use ImportSettings to copy configuration from a different computer	
	Answer: A, B, D
Question: 4	
When running a file and folder backup, files are excluded by default from three.)	m which three folders? (Select
A. Program Files folder	

D. Documents and Settings folder E. Desktop folder
Answer: A, B, C
Question: 5
What is the optimal way to migrate Hyper-V virtual machines to new storage locations without disruption?
A. mirror the volumes hosting the virtual machines to the new storage locations and break th mirrors
B. migrate the virtual machines to their new storage locations with the Storage Migration Wizar Hyper-V option
C. drag the volumes containing the virtual machines to their new storage locations in the Verita Enterprise Administrator
D. create volumes on the new storage locations and copy data from the volumes hosting the virtual machines
Answer: B
Question: 6 Why should Veritas Storage Foundation for Windows be used in a thin provisioned environment? A. to create thinly provisioned volumes B. to reclaim freed space on thin storage C. to migrate from shared to thin storage D. to defragment thinly provisioned volumes
Answer: B
Question: 7
Which file extension is used for file and folder backup files?
AFFB BFBF CV2i DiV2i
Answer: B
Question: 8

Which feature does a storage administrator use to identify the physical location of shared storage?

A. campus-aware allocation B. site-aware allocation C. array-aware allocation D. disk-aware allocation
Answer: B
Question: 9
Which feature creates simultaneous, multiple, split-mirror copies of volumes?
A. duplication B. mirroring C. RAID D. FlashSnap
Answer: D
Question: 10
What is a benefit of having a dynamic mirrored quorum resource when using the Windows Failover Cluster option? A. prevents splitbrain B. provides high level of redundancy C. improves quorum arbitration D. reduces reservation conflict
Answer: B
Question: 11

Answer: C

A. Weighted PathsB. Fault ToleranceC. Dynamic RecoveryD. Least BlocksE. Dynamic Path Recognition	
	Answer: A, D
Question: 13	
Which two are valid options f (Select two.)	for mirroring a 500GB striped volume created with two 500GB disks?
	disk group where the volume resides, select mirror, then select auto
	group where the volume resides, select mirror, then select auto select
disks C. add 3 150GB disks to the of select disks	disk group where the volume resides, select mirror, then select auto
	disk group where the volume resides, select mirror, then select auto
	left from each disk in the disk group where the volume resides and
	Answer: B, D
Question: 14	
Which feature allows end user Web interface?	s to quickly retrieve their own documents from recovery points using a
A. Recovery Point Browser B. Granular Restore Option (GR C. Backup Exec Retrieve	RO)

Question: 15

D. Backup Exec Restore

Which two options are correct for expanding a 1GB striped volume with two columns to a 2GB volume? (Select two.)

- A. Add 4 256MB disks to the disk group and expand the volume using the max-size option
- B. Add 4 512MB disks to the disk group and expand the volume using the max-size option

C. Add 2 512MB disks to the disk group and expand the volume using the max-size option

D. Add 2 1GB disks to the disk group and expand the volume using the max-size option

E. Add 1 1GB disk to the disk group and expand the volume using the max-size option

Answer: A, C
